VUHDIPL-4-2

Concept Pro Lite 4 Channel 8MP NVR with PoE

The VUHDIPL-4-2 model is a four channel network video recorder designed to satisfy most entry-level to professional requirements. It has four channels of PoE/PoE+ built-in, supports the latest H.265 video compression codec for greater storage and bandwidth savings, and provides real-time recording performance at up to 8-megapixel resolutions across all channels.

Professional Remote Monitoring

Provides 24 hour remote monitoring for clients and is available on all Concept Pro recorders with Alarm Receiving Stations using Immix Cloud and Sentinel platforms.

Deep Learning Video Analytics

This product supports the latest Deep Learning video analytics technology when compatible Concept Pro IP cameras are connected. Easily configure Deep Learning Motion Detection and advanced video analytics rules from the recorder user interface and begin reducing false alarms by up to 95% with the power of Deep Learning.

NDAA Compliant

This product uses the latest in chipset technology from Taiwan and is developed in South Korea without the use of restricted components.

Enhanced Security

This product supports a suite of security-related features, including automatic password expiration, encryption, and more settings designed to ensure authorised users are accessing the device.

KEY FEATURES

- 4 PoE/PoE+ IP Camera Inputs
- H.265 & H.264 Video Codec Support
- Real-time 8MP Recording for all Channels
